Owner's Warranty Responsibilities

As the vehicle owner, you are responsible for the performance of the required maintenance listed in your owner's manual. American Honda recommends that you retain all receipts covering maintenance on your motorcycle, but American Honda cannot deny warranty coverage solely for the lack of receipts or for your failure to ensure the performance of all scheduled maintenance.

You are responsible for presenting your vehicle to a Honda motorcycle dealer as soon as a problem exists. The warranty repairs should be completed in a reasonable amount of time, not to exceed 30 days.

As the vehicle owner, you should also be aware that American Honda may deny you warranty coverage if your vehicle or a part has failed due to abuse, neglect, improper maintenance or unapproved modifications.

If you have any questions regarding your warranty rights and responsibilities or if an authorized Honda dealer cannot repair your motorcycle or honor your claim within a reasonable period of time, contact the American Honda Motorcycle Customer Support Office for assistance (see page 18). If you are not satisfied with the way in which a warranty claim is resolved by American Honda, you may write directly to:

The Emissions Control System Defects Warranty is in addition to the American Honda Motorcycle Limited Warranty. These warranties are given only to the owner of a motorcycle distributed by American Honda through the Motorcycle Division.

To qualify for coverage under the defects warranty, you should operate and maintain your motorcycle according to the requirements on page 3 of this Warranty booklet, and the Maintenance Schedule in the Owner's Manual. This schedule is designed to keep your motorcycle emission control systems functioning properly by maintaining your motorcycle in peak operating condition. American Honda will not deny a warranty claim solely because of lack of maintenance or maintenance records. However, failures caused by abuse or lack of required maintenance will not be covered by this warranty.

American Honda recommends that only parts supplied by American Honda or equivalent parts be used to repair your motorcycle. Maintenance, replacement, or repair of emission control devices and systems may be done by any motorcycle repair establishment or individual. American Honda will only pay for warranty repairs performed

Emissions Control Systems (continued)

at an authorized Honda motorcycle repair facility (except in an emergency situation). An emergency situation exists when a Honda dealership is not reasonably available, a warranted part is not available within 30 days, or when an authorized Honda facility is unable to complete a repair within 30 days. In an emergency situation, the repair of emission control devices or systems may be done by any motorcycle repair establishment or individual, or by the owner, using any replacement part. American Honda will reimburse you for those emergency repairs, including diagnosis, covered by the Emissions Warranties. Parts reimbursement is at the manufacturer's suggested retail price, and labor reimbursement is at a geographically-appropriate hourly labor rate for Honda's recommended time allowance. For reimbursement, present the replaced parts and a copy of the paid receipt to any authorized Honda motorcycle dealer. A list of parts covered by this warranty appears on pages 12 and 13.

The use of replacement parts not equivalent to the original parts may impair the effectiveness of your motorcycle's emissions control systems. If such a replacement part is used in the maintenance or repair of your motorcycle, and an authorized Honda dealer determines it is defective or causes a failure of a warranted part, your claim for repair to bring your motorcycle into compliance with applicable standards may be denied. If the part in question is not related to the reason your motorcycle fails to meet the standards, the claim will not be denied.

This Emissions Warranty Does Not Cover:

- Failures or malfunctions of the emission control systems caused by abuse, alteration, accident, misuse, or the use of leaded gasoline

 - spark plugs
 - filters
 - coolant
 - lubricants
 - gaskets
 - hoses
 - belts
- Consequential damages such as loss of time or use of the vehicle.
